Buenos Aires, Argentina

## ABOUT

Experienced software developer specializing in front-end technologies with 3 years of industry experience. My expertise lies in optimizing user experiences through precisely crafted, pixel-perfect UI designs and I can work self-sufficient. I was responsible for the Frontend app delivering, collaborating with a team of 10 individuals and often guiding teams of 3. Additionally, spearheaded the development and delivery of 2 projects from scratch: 1 mobile application and 1 Backoffice app.

## SKILLS

React JS	Next JS	Typescript	Redux	React Native	Node JS	Express	PostgreSQL	Figma
API REST	ClickUp	Git	Github	Agile methodologies	SCRUM	BitBucket	SPA / SSR	Auth0
HTML5	CSS3	JavaScript	API Development	Front-End Development				

## EXPERIENCE

### Frontend Developer

InnovativeDev Global

05/2023 - Present Remote, Argentina

- I design a solution to improve loading times for key forms within our client's web application, significantly enhancing user experience. Previously, load times averaged 30 seconds; through strategic enhancements, I reduced this to an average of 3 seconds, marking a remarkable 90% improvement in performance.
- Pioneered the development of a new application, "Backoffice" empowering administrators with customizable dashboard functionalities, notably enhancing calendar management capabilities.
- Guided the development process of a cutting-edge mobile application featuring integrated video call functionality, engineered from inception to login credentials and help in the app deployment.

### Semi Senior Front-end developer

DataAnnotation Tech

12/2023 - 04/2024 Remote, New York, USA

- Spearheaded the development and training of AI chatbots, thorough crafting several coding challenges and corresponding solutions.
- Ensured the production of top-tier code snippets while precisely evaluating AI-generated code for accuracy and efficiency.
- Writing explanations of how code could solve problems and evaluating various solution approaches.
- Exhibited fluency in English, matched with exceptional writing and exceptional grammar, facilitating clear communication and documentation processes.
- Writing human-readable summaries of coding problems

### Full Stack Developer

Finesite

11/2022 - 05/2023 Remote, Argentina

- Translate wireframes to visual elements and stay updated on design trends.
- Collaborate to develop and implement intuitive and responsive web apps.
- Communicate effectively with stakeholders.
- Developed and deployed robust solutions utilizing a tech stack inclusive of React.js, JavaScript, Node.js, and other relevant technologies, contributing to the advancement of projects at Finesite.

## EDUCATION

### Computer Science Degree

University of Atlántida Argentina

03/2021 - 12/2024 Mar del Plata, Argentina

### Electronics Technician

Escuela de Educación Técnica Número 2

03/2014 - 2020 Mar del Plata, Argentina

## PROJECTS

---

### Bookovich

Developed a E-commerce Web Application for online Ebook sales, incorporating fundamental e-commerce features such as:

- User management (CRUD).
- Shopping cart functionality.
- Google authentication.
- Dark Mode for improved accessibility.
- User-specific dashboards for administrators.
- Personalized user profiles.
- Comment sections.
